

**Alternative Educational Academy  
Iosco County**

October 16, 2021

Dear Parent(s)/Guardian(s),

It is important that you are aware that we have students and/or staff who have either tested positive for COVID-19, or who are subjects of contact tracing investigations being conducted by District Health Department #2.

On 10/15/21, we made the District Health Department #2 aware of a positive case(s) of COVID-19 amongst the Iosco RESA School Community. This data may include probable and confirmed cases as reported by District Health Department #2 among students, staff, administration, coaches, or visitors, if the person with COVID-19 was in the building or participating in a school-sponsored function during their infectious period.

Unless you have been contacted by us or a representative from the Health Department, there is no reason for you to be alarmed. Because we have a very cooperative working relationship with the health department, those who may be at risk are notified very quickly and are given very specific instructions on what to do.

At this time, the Alternative Educational Academy will remain open. With the current resurgence of cases in the area, we are urging everyone to continue to practice social distancing and follow all other preventative measures.

Thank you for your time and your much-needed and anticipated cooperation.

Sincerely,

Tina Williams, Director  
Iosco Alternative Educational Academy
